Workforce Management

Boost operational efficiency in driving high-level learning behaviours and engage resources to ultimately make better decisions

Find connections

Enable resources to view reporting/hierarchical relationships and find people based on a variety of attributes through org chart and company directory.

A central repository of information system

Centralize information of students, faculty and administrators, ensure that it's always up-to-date, and gain actionable insights into various aspects of the profile.

Faculty/staff recruitment made simple

Manage end-to-end recruitment process by having control over vacancies, job postings, interviews, applicant assessment, tracking, informed recruitment decisions, offers and background checks.

Paid-time-offs, expenses and timesheets

Offer self-service capabilities to quickly apply for absences, fill timesheets and prepare expense entries for food, travel, lodging and other expenses.

Meet development needs of students/staff

Develop, align, recognize, and reward resources based on goal-setting, ongoing feedback and performance management activities.
